

Learning By Competing gets down to business!

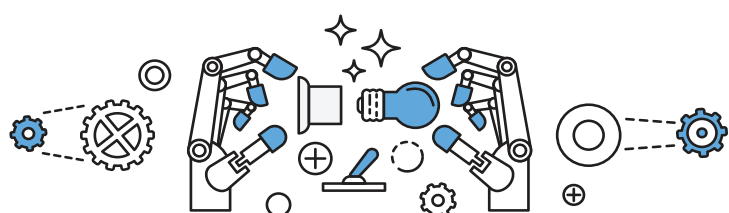

What do we foresee for the next year?

The **mobility** for VET trainers and students that also hosts the **first robotics competition** and will see the piloting of the first two training modules the partnership has developed is going to be held in **Espinho in Portugal** from the 24th to 28 January 2022.

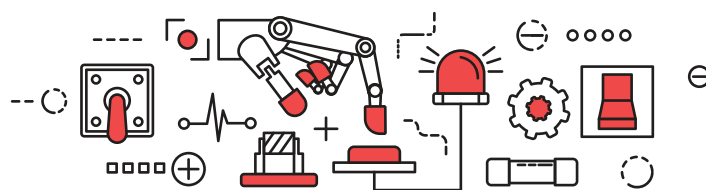

25 participants (5 trainers and 20 VET trainees) from **Italy, Spain, France and Portugal** will be involved in a training session and will challenge each other on circuits in international teams to build their robots.

Enter our Moodle platform and access the first two modules:

Assembly and control of the robot

Line-tracking robot

To compete with us!

What are the next step?

Partners are committed to the continuous implementation of the Learning By Competing project. They are now working on a further two training modules and on the organization of the other two mobilities to be held in Spain and France!.
