# «LEARNING BY COMPETING»

# The City of **SALERNO**

- Salerno is a pretty big city in the south of Italy. There are more than 134. 850 inhabitants and it's the second most populated city in Campania Region.
- “Piazza della Libertà”, perfectly stuck between the Amalfi coast, on the North and the Cilento Coast on the south.

Erasmus+ Programme  
of the European Union

LEARNING BY COMPETING

# Amalfi Coast

# Cilento Coast

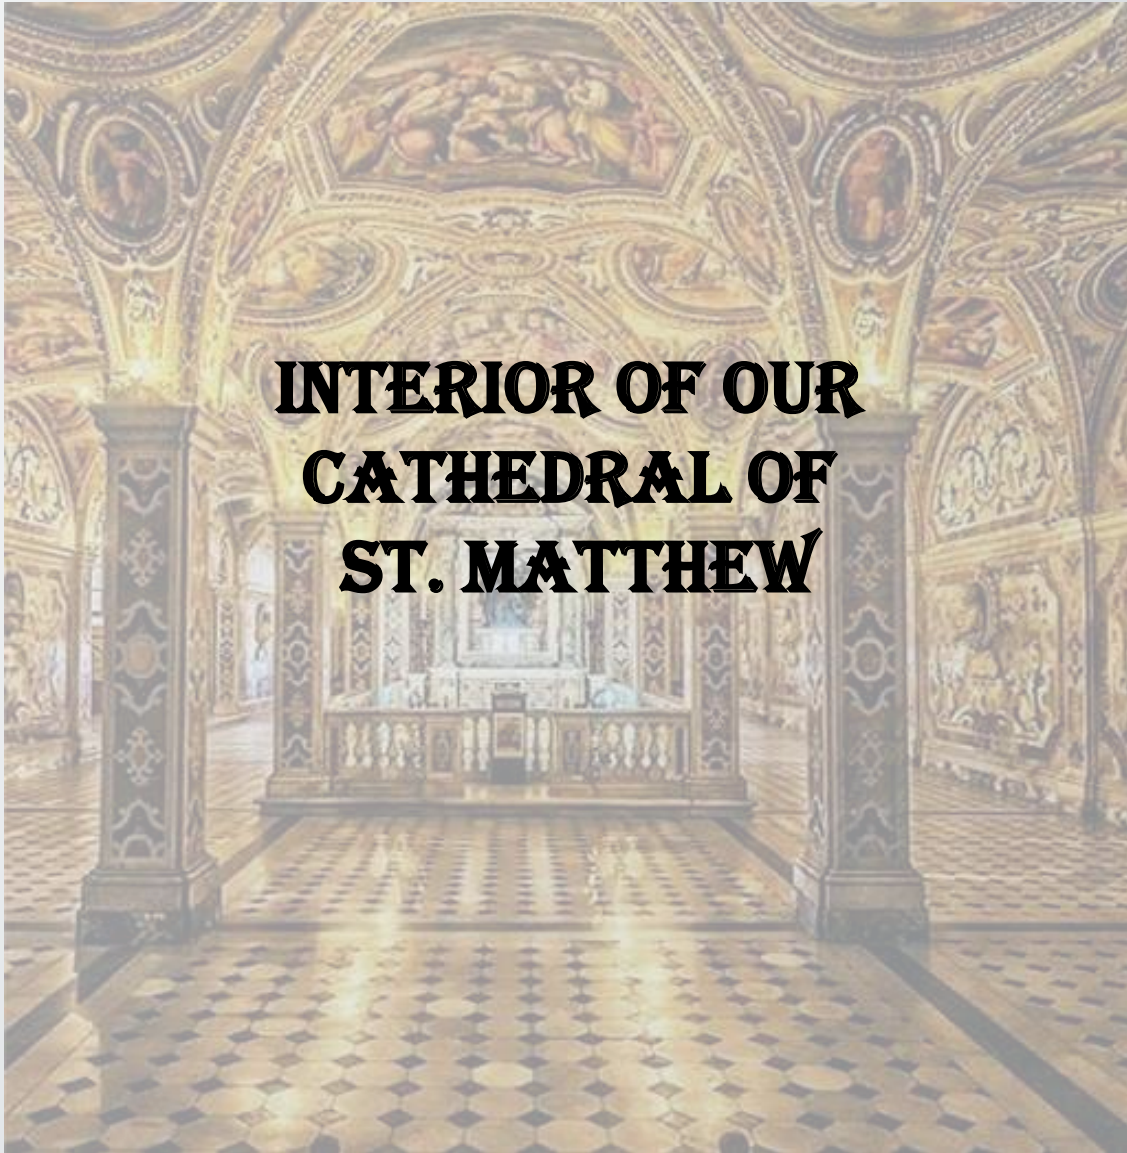

**DURING THE MIDDLE-AGE,  
IT WAS FAMOUS FOR THE  
“ANCIENT SCHOOL OF  
MEDICINE”**

The image shows the exterior of a building with a white facade and a small bell tower. A red banner on the wall reads "MUSEO VIRTUALE DELLA SCUOLA MEDICA SALERNITANA". The building is surrounded by greenery and a blue fence in the foreground.

**INTERIOR OF OUR  
CATHEDRAL OF  
ST. MATTHEW**

The image shows the interior of a cathedral with a checkered floor, ornate columns, and a highly decorated ceiling with frescoes. The altar is visible at the end of the nave.

# The food

The city of Salerno has a pleasant **mild weather** for most of the year and splendid beaches, that's why it is quite popular as an holiday destination. If you want to come here on holiday, I'd strongly suggest you to try our local food and traditional cuisine

# Amalfi coast

- ❖ If I were you, I would also visit the Amalfi Coast.
- ❖ trust me it's really worth it!
- ❖ Cities in that location are built up onto steep lands and they all face the coast from a raised position on top of the rocky coast headlands.

# Minerva Gardens

- Of course, Don't forget to also give a look to the incredible - interior of our Cathedral, and our Minerva gardens, where the professors of the "Ancient School Of Medicine" used to grow medical herbs and roots.

# Liceo Statale Alfano 1

- The Alfano 1 school, our school, is on the east side of the city. It is a large school with about 1340 students and 200 teachers.
- There are five areas of study: Scientific, Linguistic, Human Sciences, Dancing and Music

# WHAT ABOUT US?

- We are students of the Scientific area and the subjects we study are scientific subjects, in particular Physics and Science with their well-equipped and spacious labs.
- As for this ERASMUS project, we want to introduce ourselves.
- We all share the same passion for both programming and robotics and that is exactly what made us get together to live such a unique experience that this Erasmus represents
