Our School

Espinho is a small municipality that belongs to the district of Aveiro. It has 32 thousand inhabitants (2011).

TOURISTIC ATTRACTIONS

Beaches

Espinho has 8 km of beaches which, since 1830, have been sought after for their mild climate and extensive sands, together with sea rocks full of seaweed. The immense blue sea that surrounds the fine sand is cut by spurs in areas propitious for bathing, with the pleasure and safety of a carefully watched beach, but also exhibiting a suitable swell for the practice of water sports, such as surfing or bodyboarding. To those who look for the more natural side, we suggest a walk, on foot, along the beaches south of Espinho or the renting of horses in the Riding Centre of Espinho and that you follow the seaside until the Paramos Lagoon. Enjoy!

Arte Xávega

The arte-xávega is an artisanal fishing system characterized by having an apparatus or net that on our coast is launched by a sea boat. Starting from the beach, it moves to distances allowed by the device and returns to the beach, initiating the so-called encircling and hauling out fishing, which is practiced with a large boat and a large net (large gear). It is not the boat but the net that gives the "art" its name.

Weather

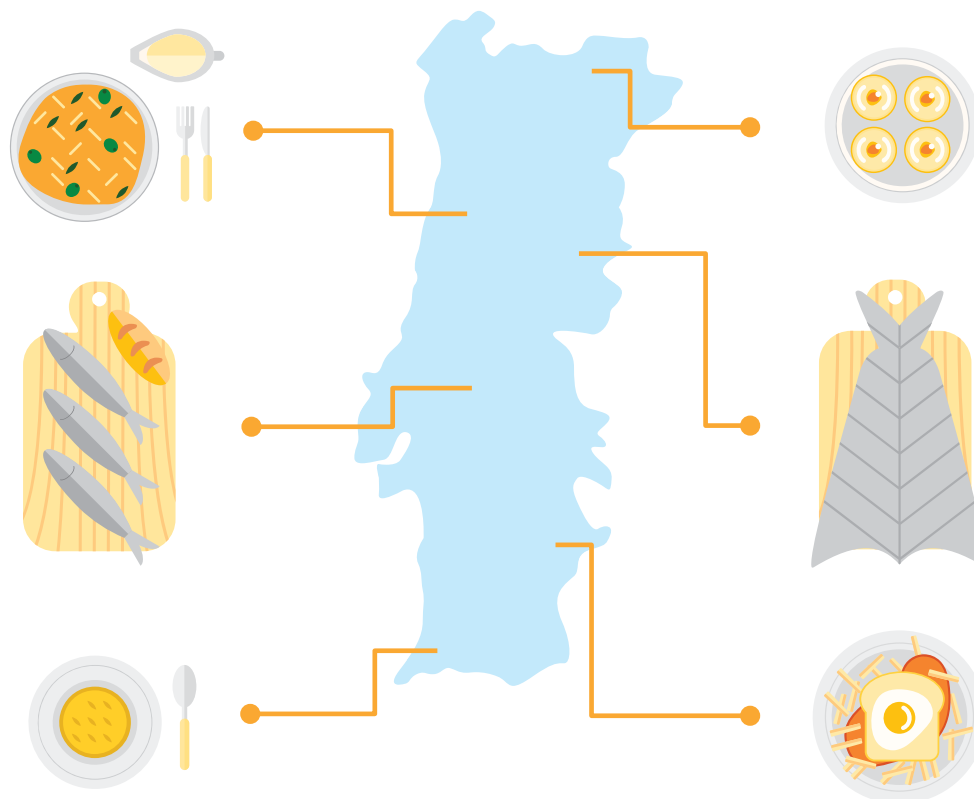

In Espinho, Summer is pleasant, dry and with almost cloudless skies; Winter is cool, with precipitation and partly cloudy skies.

Throughout the year, in general, the temperature ranges from 6 °C to 24 °C and is rarely below 1 °C or above 29 °C.

GASTRONOMY

Our gastronomy has the flavours of the sea as its protagonists. We invite you to taste the famous "Camarão de Espinho" as a unique experience, a gastronomic ex-libris with a fame recognised beyond borders. The "fish that comes out of our net" of Xávega Art has the role of primacy and is the starting point of all specialties, such as "Caldeirada de Espinho", the great variety of "grilled fresh fish", "Arroz de Marisco" and "Sopa de Peixe".
